Steel-cage matchup: grizzly bear vs. silverback gorilla. Who wins and why?

*I have thought way too much about this, researched and ran the numbers. An average grizzly versus an average silverback, grizzly win 65% of the time. But if we are talking about a top of the line silverback against a massive coastal grizzly then it the grizzly hand down! The bear will have the size and strength advantage weighing in around 1400 pounds which will double the gorilla's size. Plus the bear is built to kill, those massive 4 inch claws give a huge advantage! And don't forget that the grizzly is surprisingly fast, it has top speeds of up to 35 mph, compared to the gorilla at 25 mph.*
